

**Joint Conference 2011 of  
29th AIAA International Communications Satellite  
Systems Conference (ICSSC-2011),  
17th Ka and Broadband Communications Navigation  
and Earth Observation Conference and  
9th BroadSky Workshop**

**Date:** November 28 – December 1, 2011

**Venue:** Hotel Nikko Nara, Japan  
8-1 Sanjo-Hommachi, Nara 630-8122 Japan

**Papers are being solicited in the following areas:**

- Advanced communication techniques
- Advances in payload subsystems and architectures
- Antennas and propagation
- Communications and network protocols and interoperability
- Advanced in earth terminal systems
- Integrated services for disaster relief
- Integrated services for remote medicine and remote access to medical records
- Interactivity via satellite
- Mobile broadband communications – Land, sea and air
- Military and dual use system and applications
- Rapid response payloads
- Regulatory and spectrum sharing issues
- Launch vehicles – Update
- Earth observation systems and applications
- Satellite-aided navigation systems
- Integration of air and space – Challenges and opportunities
- Maritime surveillance

**Important dates**

**Abstract Deadline:** 1 May 2011

**Author Notification:** 1 July 2011

**Final Manuscript Deadline:** 1 October 2011
